WEDNESDAY, *Auguſt* 14, 1751.

STOCKHOLM, May 16.

THE firſt Embarkation of the Troops which are to be ſent to Finland was made a few Days ago, and conſiſted of 3000 Men. The remaining 5000 will be embarked as ſoon as poſſible, and in the mean Time great Quantities of Ammunition and Proviſions will be ſent to ſupply the Magazines. Theſe Troops are commanded by the Majors General de Wirtemberg and Hamilton, and it is confirmed that they are to be ſet to work upon the Fortifications of the Frontier Places of Finland.

Berlin, May 25. On the 22d Inſtant the King made a Review of thirty ſeven Battalions, and thirty-one Squadrons, upon the Plain of Tempelhoff. Theſe Troops form'd a Body of 28000 Men, and went through the whole Exerciſe in Preſence of his Majeſty and the Royal Family, attended by all the foreign Miniſters, and moſt of the principal Nobility; and among them were ten Swediſh Officers, who came from Stockholm on purpoſe to ſee this Review, which gave a general Satisfaction to all preſent. Yeſterday the whole Army was exerciſed, and To morrow his Majeſty will review the Cavalry. His Majeſty intends to return after To morrow to Potſdam, and ſet out the firſt of June to viſit his Provinces on the other Side of the Veſer.

Rouen, May 21. In Conſequence of a Contract made with ſome Ship Builders here, for building Men of War for the Government's Service, two are already finiſhed of forty-five Guns each. They are building Ships with the ſame Eagerneſs in all the other Ports of this Kingdom; and we have certain Advices from Canada, that twenty-two Ships and Frigates have been built there ſince the Peace.

Paris, May 28. It is pretended that the Ceſſion of the Kingdom of Corſica in Favour of a certain Prince, will be brought upon the Carpet at the Congreſs which is to be held at Toulon for adjuſting the Affairs of that Kingdom. The two Men of War lately fitted out at Breſt, will ſail very ſoon under the Command of Mr. Dubois de la Mothe, but the Place of their Deſtination is not known. Another conſiderable Armament is talked of.

From the Utrecht Gazette.

London, April 26. *N. S.* The Government received Advice a few Days ago, that near 200 Ship Carpenters had gone over to Boulogne, with an Intent to take a Paſſage from thence to Ferrol, on board a Ship freighted in the Port of London, for that Purpoſe, and that they had engaged in the Service of the Crown of Spain, in Conſideration of high Wages. As thoſe Men could not contract an Engagement of this Nature, without Breach of Loyalty to the Government, the Cuſtom-Houſe Veſſels belonging to Dover, have been order'd to lie off of Boulogne, to intercept the Ship in Queſtion, and bring her to England, as a Smuggler, to the End that ſuch Britiſh Workmen as ſhall be found on board may be ſecured, and proſecuted according to Law. Suppoſing this Account to be true, may it not be lawful to enquire, Whether there are any Circumſtances that can extenuate their Guilt? How many Quarters may be due to them? How often have they been forced, by long Delays of Payment, to take up Money at exorbitant Intereſt, or elſe ſell their Wages for fifteen or ten Shillings in the Pound? In private Concerns, if a Maſter does not pay his Journeymen on the Terms agreed upon, he is liable to be ſued; the Law is clear in the Caſe: But a poor Labourer in the public Yards and Docks does not know how to come at his Wages; he muſt wait the Leiſure of bad OEconomiſts, who will never be out of Debt, whilſt dirty Jobs make up a great Part of the Syſtem of Politics.

If then *Oppreſſion* makes Men *mad*, can't an honeſt Jury, according as Circumſtances may appear to them, bring in a Verdict of *Lunacy* for the Priſoner?

From the ſame Gazette, London April 27.

The laſt Diſpatches the Government received from Barbadoes from Mr. Greenville and Commodore Holbourne, import, that an Engliſh and a French Man of War, having ſailed to the four Neutral Iſlands, and cauſed the French Court's Orders to be read there for evacuating them, the Inhabitants refuſed to obey it, and quit their Dwellings, alleging that they had been too long in Poſſeſſion, and that they had been at too much Labour and Expence to abandon thus their old Habitations. Several Conferences have been held on this Occaſion, and a Courier was diſpatched to Paris the 22d Inſtant, with Orders for the Earl of Albemarle to make Repreſentations to the French Miniſtry, and to inſiſt on the French King's diſpatching Orders to the Governors of the Caribbee Iſlands to ſecond the Engliſh Men of War, and force the Inhabitants of the ſaid Iſlands to quit Poſſeſſion; becauſe his Majeſty does not conſider them as Subjects of his Moſt Chriſtian Majeſty, but rather as Banditti and Rebels, and that he will diſpatch Orders in Conſequence to his Men of War in thoſe Parts. The Earl of Albemarle is ordered to ſubjoin, That as the King has punctually performed his Part of the Treaty of Aix-la-Chapelle, his Majeſty does not doubt but the Moſt Chriſtian King, actuated by the ſame upright Principles, is ready to concur in the neceſſary Meaſures for procuring the Evacuation in Queſtion.

——It is indeed almoſt too late to puff and bluſter about this Affair: The French and Pruſſian Intereſts are now firmly eſtabliſhed in Sweden: The Turks begin to ſhow a true Copy of their Countenance, and Great Britain's Situation is much worſe than it was two Months ago. Why a Squadron was not ordered to drive the Frenſh out of the Neutral Iſlands two Years ago, might be beſt anſwered by thoſe who are in the Secret, and know to a Hair's Breadth what is to be got by tedious Negotiations with France.

Edinburg, April 18. A remarkable Inſtance of the Power of the *Electrical Aura* has lately happened in this Place. Robert Moubray, who in the Beginning of January was ſtruck with a compleat Palſy of his Tongue, and ſince that Time entirely loſt the Uſe of his Speech, was taken into the Royal Infirmary ſome Weeks thereafter, where, by the Uſe of Remedies, he was, in a great meaſure, relieved of other Symptoms that attended him; but the Palſy of his Tongue remaining obſtinate, he was at laſt ordered by the Phyſicians to lay aſide the Uſe of all Medicines, that he might fairly try what Electriſing would do in ſuch a Caſe: Accordingly laſt Week it was begun, and by Saturday he was able to extend and put out his Tongue, which till then had remained dead and motionleſs. On Monday he could plainly articulate a few Words; and, after repeating the Experiment on Tueſday, he ſpoke diſtinctly to his own great Joy, and the Surpriza of all who were preſent.

LONDON.

May 9. Yeſterday Morning an Expreſs arrived at the India Houſe, with the agreeable News of the Arrival in the Downs of the Elizabeth, Capt. Wills, which has been ſo long miſſing. It appears that this Ship ſailed from Fort St. David's the 14th of February, 1749, and loſing her Foremaſt ſoon after, and ſpringing a Leak at the ſame Time, ſhe beat about ſeveral Months, till at length ſhe reached the Iſland De l'Agoa, on the other Side of the Cape of Good Hope, the 19th of July 1750, where the Captain ſent a Boat aſhore for Proviſions, but it unhappily overſet, and all the Hands in it were drowned; however, he made ſhift afterwards to get the Ship into a

Creek

Creek, where he was plentifully supplied with Provisions, and then sailed for the Cape, where he arrived the 12th of December, and from thence sailed for St. Helena the 1st of February, where he arrived the 17th of the same Month, and there met with the Boscawen and Fort St. George, bound from India, with whom he sailed the 25th ditto, but parted Company three Days after in hazy Weather.

Captain Bracey, and several of the Officers of the Fort St. Geore, are dead.

During Part of the Voyage the Elizabeth was so distressed, that the Men had only a Pint of Water a Day allowed them, and were so sickly, that no more than six Hands were upon a Watch at a Time. There are only 13 of the Crew alive that went out in her, the Captain and upwards of 50 more having died in the Voyage, and Mr Wills, the chief Mate, came home Captain.

May 11. Yesterday the Purkers of the Boscawen, Capt. Brand, from Bombay, and the Fort St. George, Capt. Burdett, from Fort St. George, came to the India House, with the agreeable News, that the said Ships arrived safe the 7th Instant off Plymouth. They left at the Cape, two French Ships, outward bound, with Troops on board.

May 13. We have received the following melancholy Account from several of the poor British Captives lately redeemed from Slavery in Barbary, some of whom came home in the Blandford Man of War the 22d of last March, viz. That they sailed October, 1745, out of the River Thames, in the Inspector Privateer, Capt. Veale, of 22 Carriage Guns, besides Swivels; and on the 4th of January, 1745[6], were wrecked in Tangier Bay on the Coast of Barbary, where they lost ninety-six of the Crew, and eighty six getting on Shore alive, were immediately seiz'd and stripp'd by the Moors; seventy-nine of them being carried to Prison, were chained twenty together, and kept in that miserable Condition, four Days and Nights successively, without any Thing either to eat or drink, and lay upon the bare Stones; under which Distresses they were consulting to draw Lots for one to be killed to subsist the rest; but on a Remonstrance from the Goaler, that they were near expiring, the People of the Town sent them eight small Sheep, two of which they instantly devoured raw, and from that Time they were allowed Bread and Water. In which Condition they remained four Months, and were then drove up the Country from Bufcorn, which is 200 English Miles, barefooted, like a Flock of Sheep, to the Emperor of Morocco, who ordered them to Slavery the third Day after they came there, in building up and pulling down large Castle Walls, where they worked with very heavy Tools from Sun-rising to Sun setting, Sundays and all Days alike; their Allowance, for a great Part of their Slavery being but a Half Blankeen a Day, which is but one Penny; and at the most only a whole Blankeen. In this Condition they remained for upwards of four Years, when they were redeemed by William Lattin, Esq; Ambassador to Muley Abdallah, Emperor of Morocco; and it is very surprizing that so many of them survived these great Fatigues, only eight of them dying in the Country, as they never had any thing to lie on but the Ground and Stones, and nothing to cover but a Straw Hat on their Heads, and a Piece of a Blanket round their Bodies in the Day Time.

Yesterday several of the Lords of the Admiralty, and other Persons of Distinction, went down the River in the Admiralty's Barge, and din'd on board Capt. Rodney's Ship in Long-Reach. The Captain sails this Week for the South Seas, to make an Improvement of some Discoveries made by Lord Anson when in those Parts.

The Lords of the Admiralty have appointed Capt. Hill to Command the Gloria, a 20 Gun Ship, and Capt. Martin Commander of the Blandford, of twenty Guns.

And Capt. Harriott to be Commander of the Swan Sloop of War, who are all ordered to join Commodore Edgcombe, who has hoisted his Pendant on board the Monmouth, a 70 Gun Ship at Plymouth, for the Mediterranean.

Their Lordships have also appointed Capt. Parry to be Commander of the Buckingham Man of War of 74 Guns, lately launched.

The same Day was held a Board of Admiralty, when their Lordships gave Orders for rigging the Buckingham Man of War of 70 Guns, lately launched at Deptford, and to fail to the Galleons to take in her Guns.

May 15. Two very eminent Mathematicians, &c. are going in Commodore Rodney's Ship, to the South-Seas.

It is said, that a twenty Gun Ship, is also appointed to accompany the Commodore in the above Voyage.

May 17. We hear that Mr. Alderman Janssen, with Admiral Vernon, and some other Gentlemen of the Society of the Herring Fishery, are gone to Southwold to superintend the Out-fet of the Busses, for the Shetland Fishery this Season.

May 22. Yesterday his Majesty went to the House of Peers, and gave his Assent to the following Bills, viz.

A Bill for providing for the Administration of the Government, in Case it should descend to any of the Children of his late Royal Highness the Prince of Wales, under the Age of Eighteen, and appointing a Guardianship for the Care of their Person. A Bill for regulating of Trials by Juries. And, a Bill for correcting the Stile, and regulating the Kalendar now in Use.

May 25. By a Vessel just arrived at Liverpool, from Anamaboa, on the Gold Coast in Africa, we have certain Advice, that six French Ships of War were at Anchor there, with Troops, Artificers, Ordnance Stores, and all other Necessaries for building a Castle; and that the Foundation thereof was actually laid before the Ship sailed. Thus will that Nation get such firm Footing on the only valuable Part of the Gold Coast, as must entirely and for ever exclude us from the important Trade which we have hitherto advantageously carried on therewith. This however, is no Sort of Surprize to such as have seriously considered the Nature of our Commerce with Africa, and its Connection with the true Interest of our Colonies, and of Great Britain itself; whatever it may be to those who were desirous of seeing Anamaboa in the Possession of our most dangerous Rivals, rather than in the Hands of a free and open Company of British Merchants.

BOSTON, July 22.

Friday last was felt at Ipswich, Newberry, and several other Towns, a Shock of an Earthquake, attended with a rumbling Noise, something like distant Thunder.

Last Saturday Night arrived here Capt. Sohier, late Master of a Brigantine that sailed from hence about four Weeks ago for Chinecto, laden with Provision and Stores for our Forces there, and informs, that having got within a Mile or two of the Fort, a most violent Gale of Wind came up, in which he parted his Cables, and was drove ashore, where the Vessel was immediately seized by the Indians, who took out the Cargo, and then set the Vessel on Fire. They treated the People with more Humanity than usual, and conducted them to the English Fort: And while Capt. Sohier was there, an Indian came in with a Flag of Truce, to propose Terms of Peace, and affirmed to the Commander, that it was the sincere Desire of his Brethren to live in Peace with the English. He was well treated, and new cloathed, and dismissed with a suitable Present, and promised to return at a certain Day, to treat further of Peace, when he had consulted his Brethren.—There are about 500 Indians, who keep in a Body near the French Camp, from whence they send out Parties of about 50 Men, to make Excursions, and it was one of these Parties that lately fell upon Dartmouth, near Halifax, in the Attack of which Place they had two of their principal Leaders killed, as they themselves own.

By the latest Intelligence we have from Louisburg, we learn, that there were but two French Ships of War in that Harbour, and not five, as has been reported and published here: One of the Ships mounts 74 Guns, the other 36: The latter is supposed to be the same that Capt. Snow met and spoke with, as lately mention'd.

Halifax, in Nova-Scotia, June 18. This Day Lieutenant Patershall, with a Party of Men, march'd from the Parade to the Prison, from whence they conducted three condemned Malefactors to the Place of Execution, where the Rev. Dr. Tutte met them, and after discourfing and praying with them, left them; immediately the Executioner mounted the Stage, and having made fast the Halters of two, and throwing the third Halter over the Gallows, proceeded to pull their Caps over their Eyes, which he did to two of them, but going to the Third to tell him there was a Repreive for him, he immediately fainted and fell backwards; proper Care being taken of him he recover'd, and was carried back to Prison: The other two were turned off, and suffered the Pains of Death, agreeable to the Sentence pass'd on them.

July 18. About 4 Days ago, upwards of 40 Irishmen (who had been employed as Labourers on George's Island, and lately discharged) deserted us, and went over to the Indian Enemy.

They are all Roman Catholicks, as it appears, concerted their Scheme some Time ago, intending to have made their Escape from the Island, had they not been discharged. One of the principal of them, whose Name is Ryan, was taken, and is now in Irons: We hear the Remainder of those that were discharged, are to be employed to Picket in the Town of Dartmouth, which is at present almost wholly deserted, except by the Soldiery. On the 29th of June last sailed for England, the Ship Cornwallis, Capt. Ball, who was hired an Express by the Government.

WILLIAMSBURG, July 18.

Letters by the Dutchess of Queensbury, from London, advise, That the Honourable Robert Dunwiddie, Esq; is appointed Lieutenant Governor of this Colony, and is preparing to set out for his Government.

ANNAPOLIS.

Last Friday was brought to Town, one *John Conner*, a Convict Servant belonging to a Gentleman at *Elk Ridge*, who was carried before a Magistrate, where he made a free and full Confession, That he, and one *Thomas Bevan*, were the Persons who made the Attempt to rob Mr. *Cole* in the Night of the 2d of *July* last, that *Bevan* went into Mr. *Cole*'s Bedchamber and bound him, and he the said *Conner* tarried below to keep Watch, and when Mr. *Cole*'s Man fired at him, return'd the Fire which gave the Alarm, on which *Bevan* jump'd out of the Window, and they both made off together, and continued some Time lurking about in the Pines, robbing sundry People: After which they made away towards *Manocacy*, where the Country was soon alarm'd, and the Woods very diligently search'd, and they narrowly escaped being taken; they finding that the People thereabouts were so industrious in searching after them, that it was impossible to get off that way, *Conner* return'd back to his Master, and was brought to Town and made the above Confession, on which he was committed to Goal. And *Bevan* not knowing his Companion had impeach'd him, coming to Town on Saturday Night, in hopes of being carried away by Water, went arm'd to his Master, and telling him he would not have him lose by him, but should be glad to be sold out of the Country, was prevail'd on to be secreted in a Cellar, where he was surprized and taken on Sunday Morning, by several People who went in with loaded Pistols, and he is now in our Goal, strongly Iron'd and chain'd to the Floor.

A few Days ago, one *Richard Walden*, of this Place, walking on the Gunwale of a Flat then in *Bohemia* River, fell overboard and was drowned.

We are informed, that the two Men, who were apprehended in *New England*, and brought to *St. Mary's* County in this Province, to be tried for the Murder of the Master and Mate of a Vessel, which they had confess'd, have both broke Goal, and are not yet retaken.
